

Simple Melody

**When we sing a simple melody,
And we blend our notes together.
It makes something more of you and me,
When we sing together.**

**And no matter that we're far apart,
Or misunderstand each other.
Music always seems to warm our hearts,
When we sing together.**

**Like sisters and brothers,
The feeling is strong.
With one another,
Our hearts raised in song!**

**When we sing a simple melody,
And we blend our notes together.
It makes something more of you and me,
When we sing together.**
